

QUICK START GUIDE

1 CHARGE YOUR OOKA

- Please charge your OOKA fully with the power supply unit provided.
- **White Light:** Indicates Battery power level and pulsates while charging.
- **Green Light:** Connected to power.

- Batterielevel pulsiert während des Ladevorgangs
- Am Strom angeschlossen

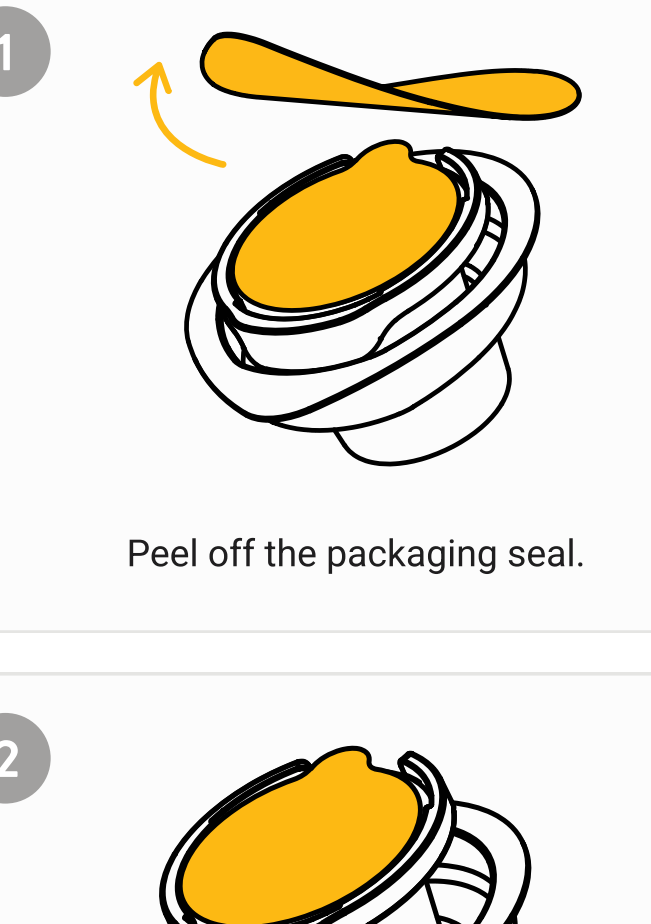

2 FILL TANK WITH WATER

- Slide the tank release button and lift the device's body.
- Add water to the fill line indicated.
- Align the dots on the device body and tank to reassemble OOKA.

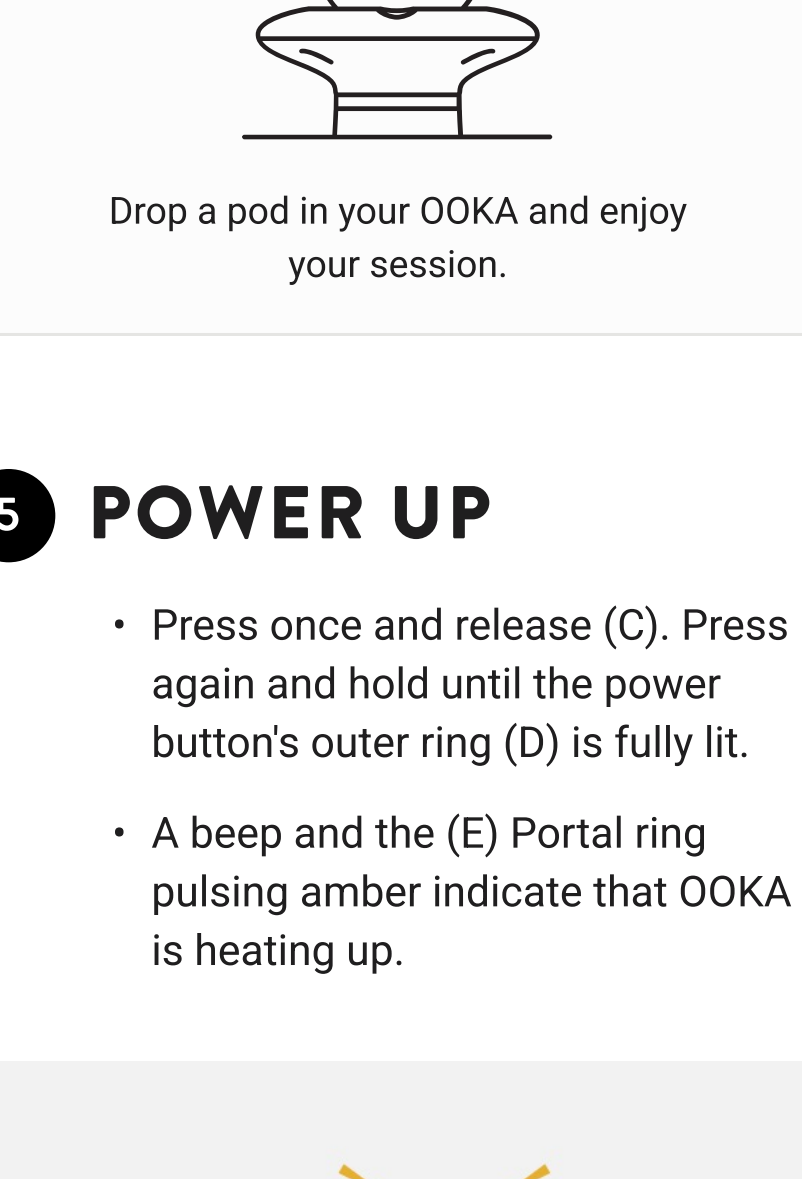

3 CONNECT THE HOSE

Position the hose as indicated below and insert it until you hear a click.

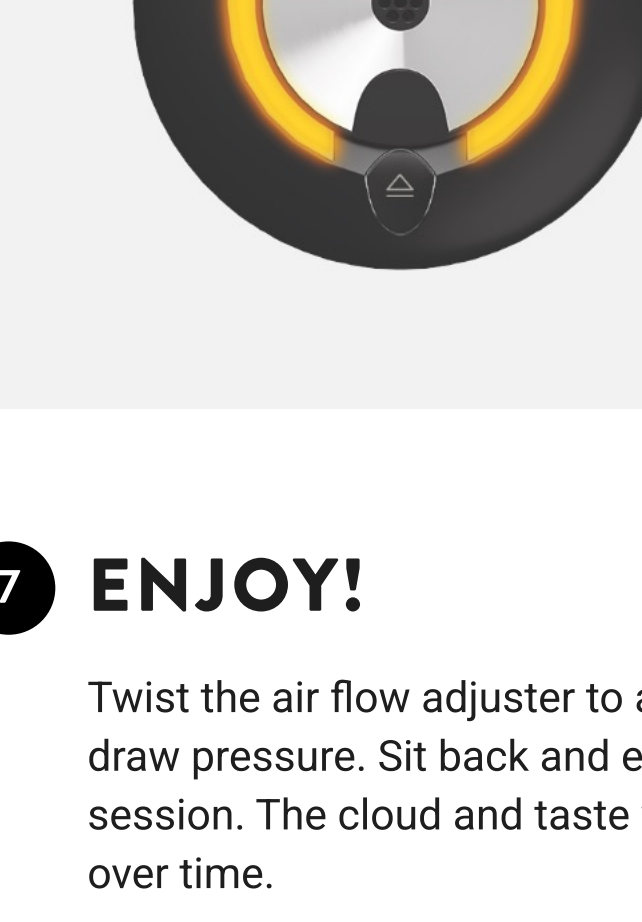

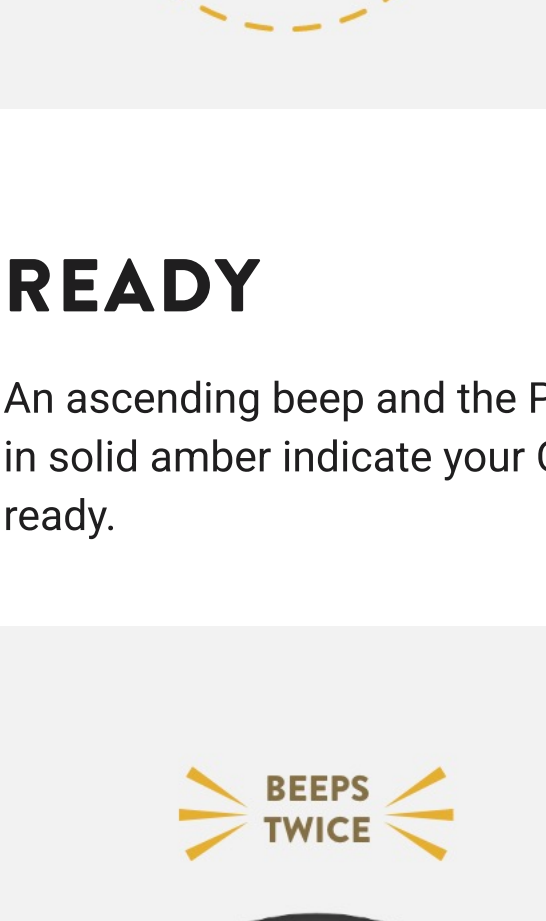

4 DROP AN OOKA POD

- Check if your OOKA pod has seals. Remove both the top and bottom seals (if any).
- Press the (A) open button to open the (B) Portal lid, drop a pod, and close it.

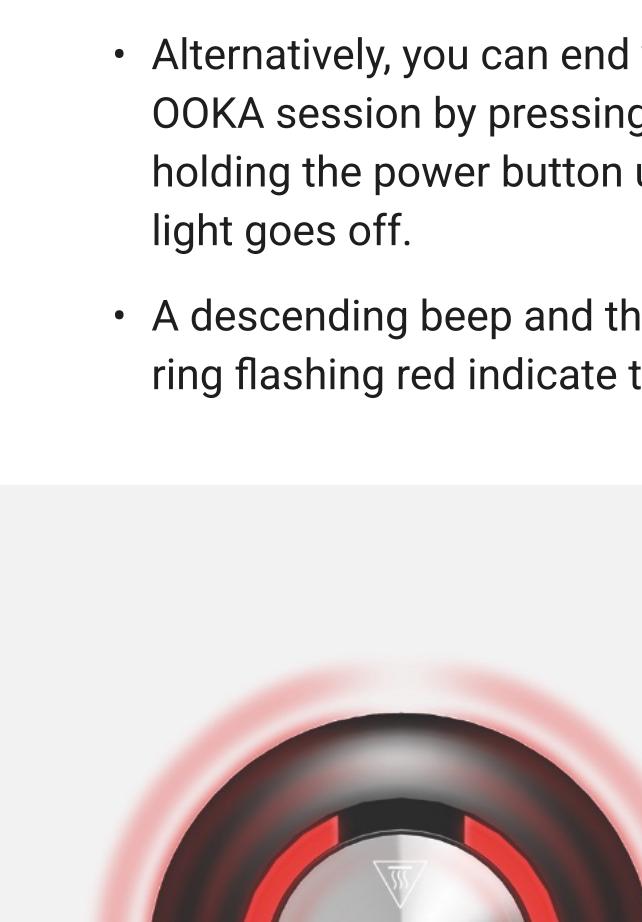

OOKA PODS WITH SEALS

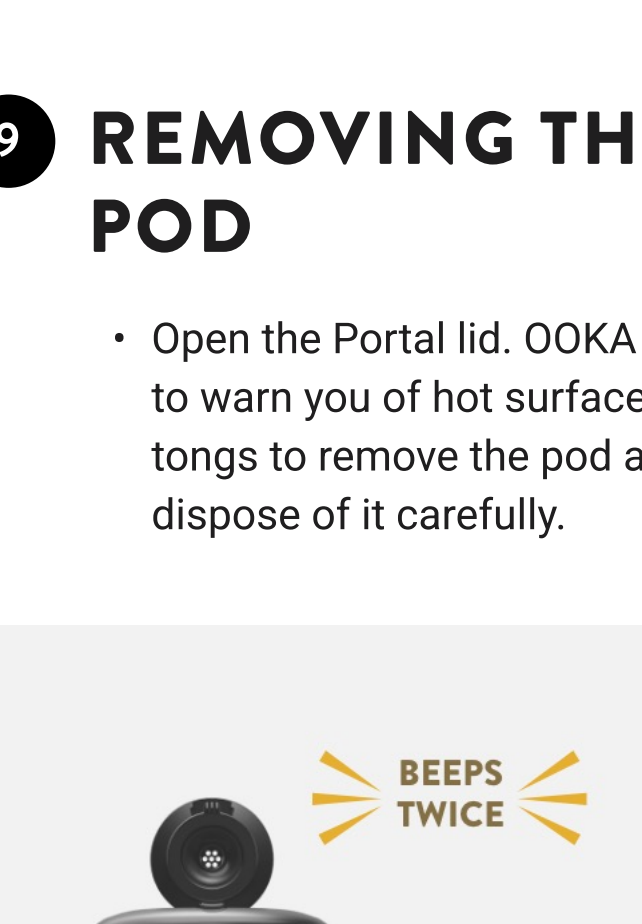

Peel off the packaging seal.

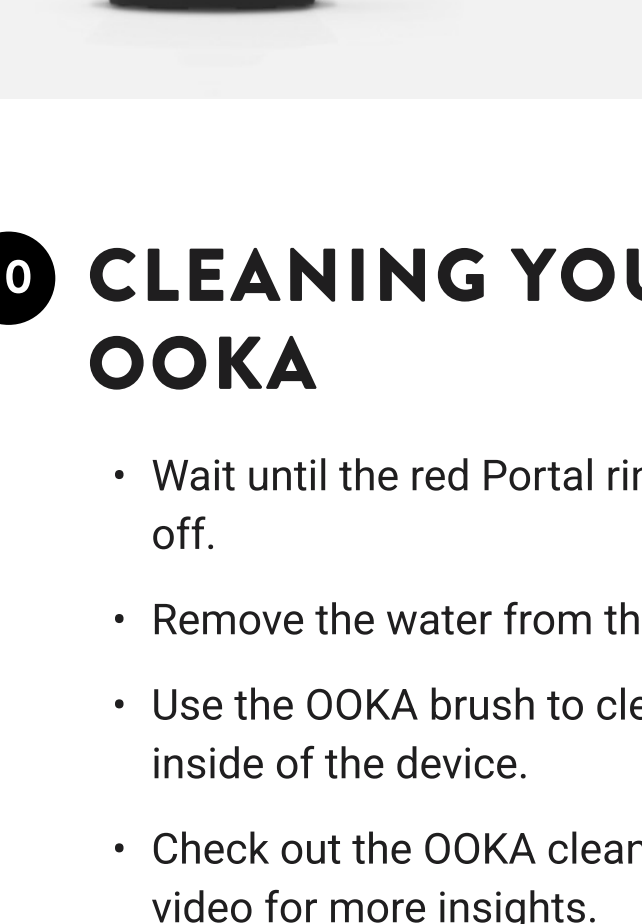

Take out the pod from its packaging.

Remove the top seal.

Remove the bottom seal.

Drop a pod in your OOKA and enjoy your session.

5 POWER UP

- Press once and release (C). Press again and hold until the power button's outer ring (D) is fully lit.
- A beep and the (E) Portal ring pulsing amber indicate that OOKA is heating up.

6 READY

An ascending beep and the Portal ring in solid amber indicate your OOKA is ready.

7 ENJOY!

Twist the air flow adjuster to alter the draw pressure. Sit back and enjoy your session. The cloud and taste will build over time.

HOW THE FINISHING & CLEANING IS EASILY DONE

8 FINISHING YOUR SESSION

- OOKA automatically switches off at the end of a session.
- Alternatively, you can end your OOKA session by pressing and holding the power button until its light goes off.
- A descending beep and the Portal ring flashing red indicate the end.

9 REMOVING THE POD

- Open the Portal lid. OOKA will beep to warn you of hot surfaces. Use tongs to remove the pod and dispose of it carefully.

10 CLEANING YOUR OOKA

- Wait until the red Portal ring goes off.
- Remove the water from the tank.
- Use the OOKA brush to clean the inside of the device.
- Check out the OOKA cleaning video for more insights.

Seien Sie besonders vorsichtig. Die OOKA ist nicht wasserdicht.
